To whom it may concern,

I was fortunate enough to work with Kevin J Luty on a couple of occasions most notably for the 2010 Winter Olympics and Paralympic Games.

I found working with a pleasant and professional experience and he was able to handle changes with affable ease.

As an accomplished performer he was a gregarious, comedic magician who knew how to draw in a crowd. Through his experience, professionalism and zeal, he was able to gain attention from all ages, backgrounds, & languages.

I have no doubt that this gentle but witty artist made a lasting impression on our visitors and I look forward to engaging his services again when an opportunity arises.

Joyously
